Treasure Island

Pirates invade St. Teath in February when the village drama group presents its pantomime, "Treasure Island"

Like the classic book by Robert Louis Stevenson, the story centres around a group of people searching for buried treasure who are faced with a mutiny by Long John and his pirates.

However, this production has more in common with the "Carry On, Jack" comedy film than the book as the treasure seekers are joined by a 5'10" parrot with attitude and a lovesick heroine, pretending to be a cabin boy so that she can follow her true love, Jim, the hero immortalised in the famous phrase, "Ar, Jim lad".

There will be an interval of 15 minutes between acts.
